Weight: 29 lb / 13 kg

BOXER INTERNET

Our *Boxers* are equipped with a special Internet module which gives the owners control of the machines. This function is ideal if You own a lots of machines located in various places.

This function allows you to:

Check the cash counter

Monitor around the clock and know if the machine is ON or OFF

Validate the counters of latest records of: power, speed and reflex

Moreover there is no need to travel from town to town to check counters. All you have to do is log-on - it is a really helpful technical solution.
